G DATA ANTIVIRUS FOR MAC OS X™

COMPREHENSIVE INSTANT PROTECTION AGAINST VIRUSES, TROJANS AND OTHER MALWARE FOR YOUR MAC®

G DATA has been researching the fast-moving field of data security for 30 years. The result is award-winning, intelligent security software for PCs and mobile devices that stays in step with the times. The EU community project IPACSO recognized us as the most innovative IT security company

in 2014 for our quick reaction to new threats. And our users are convinced by the quality of our solutions developed in Germany – almost 90 percent would purchase G DATA products again.*

G DATA security solutions are impressive for their easy installation and clear operation – and for providing reliable protection against digital malware. All of which guarantees worry-free online banking and shopping, and the best protection for emails and personal data.

If you have any questions, our trained, experienced, international service team is at your disposal around the clock, 365 days a year.
